

CITY OF JOHANNESBURG
METROPOLITAN MUNICIPALITY

a world class African city

Community + - Based Planning (CBP)

What is CBP?

The purpose of Community Based Planning is to create an enabling environment for the City to consult its residents and for them to participate and receive feedback on priority issues raised by them.

It is a process that empowers communities and encourages them to be involved in matters affecting their lives on a daily basis. Consultation with local communities through appropriate and credible mechanisms. Process and procedures have formed the greater part of the City's developmental agenda not only in compliance with Legislative requirement but as a matter of principle. —

Cllr Vasco da Gama —

What is CBP?
