# Wipe out pollution before it wipes you out

## Cllr. Jack Sekwaila

MMC for Environment and Infrastructure Services Department (EISD)

- Water pollution has far reaching effects. e.g a plastic bag thrown on a Joburg road can kill marine life including fish which is our food source in a coastal town, as it travels through the storm water drain into the rivers and streams until it reaches the sea.
- **Breathing polluted** air puts all of us at a high risk of developing respiratory lung diseases.
- Overtime, small amounts of **litter** on our roads, sidewalks **contribute to blockages** of stormwater drains.
