

MEDIA ADVISORY FOR IMMEDIATE RELEASE

Global Fund 8th Replenishment Summit Set to Spark Global Commitments in Johannesburg, South Africa

The Global Fund's Eighth Replenishment Summit, hosted by His Excellency Matamela Cyril Ramaphosa, President of the Republic of South Africa, and The Right Honourable Sir Keir Starmer MP, Prime Minister of the United Kingdom, will take place on Friday, 21 November 2025, alongside the G20 Leaders' Summit.

Co-hosted in partnership with the Global Fund, the Summit represents a critical opportunity to mobilise global donor support to end HIV and AIDS, tuberculosis (TB), and malaria. As the world's largest financier of programs focused on preventing, treating and caring for people affected by these diseases, the Global Fund plays a central role in driving global health impact in countries across the world. This year's Summit is expected to galvanise bold commitments, accelerate action and strengthen partnerships across regions and sectors.

South Africa and the UK are championing the core values that define the Global Fund's partnership model: solidarity, sustainability, innovation, equity and reform. Leaders from governments, civil society, communities, multilateral and bilateral organisations, and the private sector will come together to secure the investments needed to expand life-saving programs. Discussions will also focus on advancing resilient and sustainable health systems that protect communities and drive long-term progress.

Events Details:

Date: Friday, 21 November 2025

Time: 14:30-18:30 SAST

Members of the media are invited to register and attend the event online.
