

## **FOR IMMEDIATE RELEASE**

### **MMC FOR HUMAN SETTLEMENTS TO ALLOCATE 64 NEW SOCIAL HOUSING UNITS AT RIVERSIDE VIEW**

MMC for Human Settlements, **Cllr Mlungisi Mabaso**, will deliver 64 newly completed social housing units at Riverside View Phase 4, as part of the City of Johannesburg's ongoing programme to expand access to safe, quality and affordable rental housing. JOSHCO consistently demonstrates impressive efficiency and prioritization in its delivery process, exemplified by the successful and ahead-of-schedule handover of ERF 2634. The 64 units will provide families with secure and dignified housing, easy access to transportation hubs, an educational facility, and a shopping center, with the police station and clinic within commuting distance, all through inclusive urban development.

MMC for Human Settlements, **Cllr Mlungisi Mabaso**, said the completion of the units reflects the City's continued commitment to improving living conditions and expanding access to well-located housing opportunities. "Every new home delivered strengthens our resolve to build inclusive communities where residents can live with dignity and access opportunities that improve their quality of life. Through JOSHCO, we remain focused on increasing the supply of affordable rental housing across Johannesburg."

The Riverside View development continues to progress, with construction of a further **320 social housing units on ERF 2869** remaining on schedule. Practical completion is anticipated in early September 2026. Following completion, JOSHCO will proceed with the allocation and official launch of the additional 320 units - further expanding the City's affordable rental housing stock.

The Riverside View development forms part of JOSHCO's broader mandate to deliver well-managed, affordable rental housing that supports social inclusion, improves access to economic opportunities and contributes to the development of sustainable human settlements.

**Ends**
